Attention: Director General

Dear Director General,

**Subject: Status of establishing IP Peering Connection**

This letter serves as a response to the above referenced letter in which PTD requested OML to submit the status of technical and commercial discussions with each Operator in order to establish the independent IXP by IP Peering among Operators.

We can confirm that, to date, we have come to an agreement with Mytel and have already implemented peering connectivity with Mytel. We also had technical meetings on a bilateral basis with TML in which technical designs and peering principles were discussed. We have also initiated the technical discussions with MPT and we are currently awaiting feedback from MPT to continue the discussions.

It is noteworthy that during the period in which restrictions were implemented for COVID-19, there were some challenges around scheduling discussions. However, we are now aiming to accelerate the bilateral discussions with each Operator as expeditiously as possible. We will keep you apprised of the forthcoming discussions in this regard.

If there are any questions with regard to this response, please feel free to contact us at your earliest convenience.

Yours truly,

**Chris Peirce**  
Chief Legal and Regulatory Officer
